WHO ARE WE ?

The « Fédération des Conseils de Parents d'Elèves » (Federation of Councils of Students' Parents) is the foremost parents' federation in France.

The FCPE is an unrestricted and independent federation of students' parents.

Our fundamental values

- Non-religious education (respecting all philosophical, political and religious opinions)
- Free education for all
- Defending and upholding a good quality public service

The FCPE at the CIV

The experience and the guarantee of the most influential national federation of parents, placed at the disposition of parents of students in the International Sections at the CIV.

The C.I.V. is actually composed of three distinct establishments : the Collège, the Lycée and the EPA CIV (responsible for managing the catering and lodging services provided in the Boarding section) each with its own separate administration council.

The FCPE-CIV is a single, local council, at the service of these three establishments.

Our association, the most senior one at the CIV (since October 1985) brings together a dynamic group of parents, wishing to invest themselves in the schooling of the students in the International Sections whilst upholding a good quality, non-religious public education service.

Our aims :

- Favour as much as possible the success and achievement of each and every student
- Keep parents informed
- To be a strong source of propositions and a vector of communication between parents and the CIV Administration
